Hey there,

It's Jason Caluori and Donothan Gamble here.

We need to talk about something that's happening right now in online marketing...

Something that's quietly killing most people's income while making a small group of "in-the-know" marketers richer than ever.

Here's what's happening...

The internet is DROWNING in generic AI-generated content.

Every day, millions of new pages, images and videos flood Google, Instagram, YouTube, Facebook and more. All saying similar things, all using similar ideas and hooks, looking the same, and all converting at pathetically low rates.

Maybe you've noticed it yourself. Pages that used to rank are sliding down. Traffic that used to convert is bouncing. Methods that worked 6 months ago are barely breaking even today.

But here's where it gets interesting...

While 95% of affiliate marketers are watching their income shrink (or disappear completely), we're having our BEST year ever.

In fact, we're on track to each make well over 7 figures this year in affiliate commissions alone.

And it's all thanks to something we call...

The "Interactive Advantage"

While everyone else is stuck publishing static pages that just sit there (like a boring brochure from 1995), we've pivoted to creating **Interactive Pages** that actually ENGAGE visitors, qualify them, and guide them to the exact solution they need.

Think about it: When was the last time you were genuinely impressed by a generic "Top 10" list or a bland product review?

That's not to say those are GREAT premises for content... But what gets delivered on those pages is so often underwhelming.

So, what does work then?

Well, instead imagine if you're interested in finding a solution to a problem, and you landed on a page that asked YOU questions, calculated YOUR specific situation, and then gave YOU personalized recommendations?

That's the difference between a 0.1% conversion rate and a 5% conversion rate.

And in this report, you're going to discover exactly how we're doing what we are doing (how things are easier than EVER before), and how YOU can too, quickly and easier than it ever has been before.

Before We Go Any Further...

The Problem Nobody's Talking About...

Static Pages Are DYING (And Most People Don't Even Realize It Yet)

Let's be brutally frank about what's happening right now...

Register for the free workshop here: <https://www.stealthstr.com/workshop>

Problem #1: The AI Content Apocalypse

The internet is absolutely FLOODED with mass-produced AI content. ChatGPT has made it possible for anyone to publish 100 articles a day.

But here's the thing: Google, YouTube, Instagram, etc, aren't stupid. Neither are your visitors.

They can spot generic, AI-slop content from a mile away. And they're hitting the back button faster than ever.

Problem #2: The "Sameness" Crisis

When everyone's using the same AI tools to create the same type of content targeting the same keywords... nobody wins.

It's like showing up to a party where everyone's wearing the exact same outfit. You just blend into the background and get ignored.

Problem #3: Static Content Can't Compete

Think about the last amazing online experience you had. Was it reading a boring blog post? Or was it using an interactive tool that gave you personalized results?

Netflix doesn't just show you a static list of movies. It asks what you like and adapts. Amazon doesn't just show you products. It recommends based on your behavior. **Your affiliate pages shouldn't be any different.**

Static pages that just sit there, no matter how well-written, are becoming irrelevant.

Problem #4: Conversion Rates Are TANKING

Maybe you've noticed this yourself:

- Traffic costs more than ever (if you're buying ads)
- Organic traffic is harder to get
- And even when you DO get visitors... they just don't convert like they used to

The average affiliate page converts at 1-3%. That means 97-99% of your hard-earned traffic leaves without taking action.

That's a disaster.

But There's Good News...

While the majority of affiliate marketers are struggling with these problems, a small group of us have figured out the solution.

Register for the free workshop here: <https://www.stealthstr.com/workshop>

And it's working BETTER than ever.

Here's why:

We're Using "Stealth Interactive Pages" That Completely Change The Game

Now, before you think "interactive" sounds complicated, let me clear something up right now...

Interactive can be MUCH simpler than you think.

Yes, "interactive" CAN mean a widget, a calculator, a quiz... Which might sound complicated, but with our tools, we can generate one of those in a matter of minutes.

But it can also be even simpler than that.

Most of our pages don't even have widgets on them, just SOME of them do.

Being interactive comes down to:

- The way our tools write our content
- The way it does deep research in the background
- That leads to higher quality writing and graphics
- So that users interactively take notes, bookmark and share your content

For instance, even an infographic can be considered interactive, if visitors are actually spending time interacting with it.

[Example infographic image would go here]

People bookmark and share that infographic, they take notes, they use it in their decision making.

Here's What Our Pages Do:

- ✓ Engage visitors immediately (sometimes with quizzes and calculators, sometimes just with genuinely helpful content)
- ✓ Qualify and segment visitors based on their specific situation
- ✓ Provide personalized recommendations that feel custom-made for each person
- ✓ Dramatically increase conversion rates (we're seeing 5-10X improvements)
- ✓ Keep visitors on the page longer (which Google LOVES)
- ✓ Build trust and authority by providing immediate value

Register for the free workshop here: <https://www.stealthstr.com/workshop>

Let me give you a real example:

OLD WAY (Static Page): Generic article: "Top 10 Weight Loss Supplements"

- Everyone sees the same content
- Conversion rate: 2%
- Boring, forgettable experience

NEW WAY (Interactive Page): Interactive quiz: "Discover Your Personalized Weight Loss Solution"

- Post-pregnant mom dealing with postnatal depression? Gets completely different recommendations than someone preparing for a wedding
- Calculator shows them exactly how much weight they could lose with their specific situation
- Conversion rate: 3-10%+ (sometimes even as high as 30%)
- Memorable, valuable experience that builds trust

Can You See the difference?

One treats every visitor the same. The other creates a much more engaging experience for each person.

And that's why our pages are absolutely CRUSHING it right now.

What Kind of Results Are Possible?

We want to share some of our own results and results from the handful of private clients we've worked with using this new Interactive approach.

Another super affiliate millionaire, Mark Ling, was chatting to me (Jason) on Teams yesterday, and asked me for an update on how some of my own affiliate sites are going.

While I do have a lot of smaller earners ticking away in the background, here's what I shared with him regarding **some of my sites** I am excited about:

Jason Caluori

Here's some details on my stuff: One site I have in the automotive niche does \$500k on average per month. Then up to \$800k-1million per month during Q4. We use buyer's guides, comparisons, and other interactive elements to help people find what they want.

Another site in the health niche does \$20k per month. We use instructional images that help people learn how to use medical devices. Plus we have interactive tools that help them pick out the right products.

And a newer site in the real estate niche, which we built for getting leads is up to 50 leads a month. With customers who spend \$7k-10k for moving services.

Please keep in mind, that in a lot of niches I'm in, that I hadn't mentioned there, I go "higher ticket". That's where I affiliate to programs that pay \$1k+ in commissions and sometimes over \$10k or more for the 'best' commissions that take place.

We teach students how to do that also. I either like high ticket, or lower ticket with high repeat customers or recurring billing commissions. Automotive is like that for me, it's sometimes high ticket, sometimes low ticket, but people keep coming back. So the same customer purchases multiple times.

My business partner Donothan has made multiple 7 figures in the GOLD niche (I am doing very well with precious metals also, and he's the one who introduced me to that niche). We will get into that a bit more at the workshop, but that's one where a lot of the commissions made are very high ticket. The traffic is low but the quality of that traffic is very high.

We don't always keep our sites, sometimes we build sites, so that we can "FLIP" them.

Last year, Christine, from Australia, joined our Stealth Streams program as a newbie to Affiliate Marketing. She had made sales on Etsy before, with some physical products, but had been facing some challenges there.

She decided to affiliate in the Biohacking niche. Within THREE WEEKS of putting up her site that followed our system, she had made her first sale! And since then she has gone on to make \$4-5k+ per month, with her biggest month being \$5700 in commissions. She has been going for less than a year now, and has done very well. She has now moved towards scaling her site, and starting some new ones also in other niches.

Paul, a pilot for over 30 years, had to leave his job due to health reasons. Now, he has multiple websites making thousands a week in affiliate commissions.

Here's are a couple of his commission screenshots he kindly provided to us recently...

Date	Product or service	Qty	Rate	Amount
	Basement	3	\$250.00	\$750.00
	Basement	15	\$175.00	\$2,625.00
Total				\$3,375.00

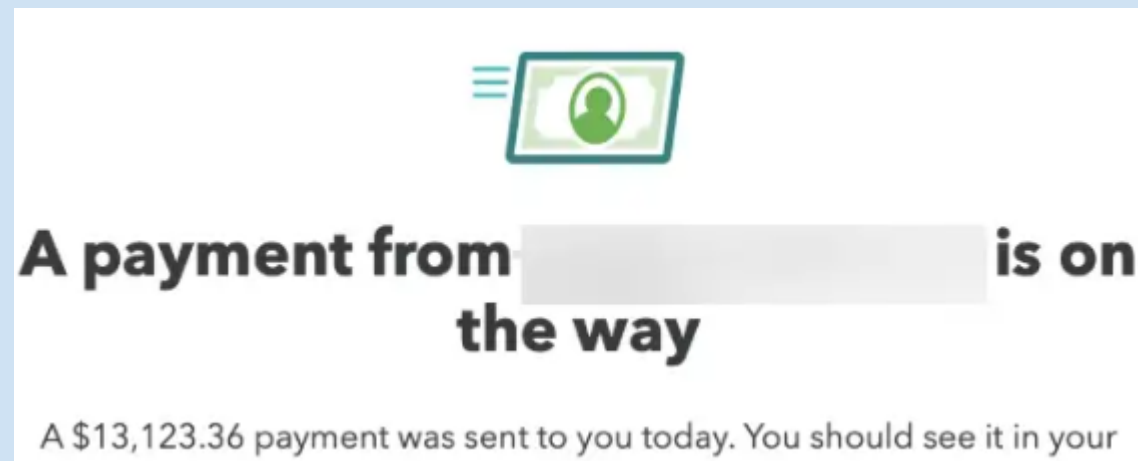

Ways to pay

VISA Mastercard Discover AMEX BANK PayPal Venmo

Note to customer

08/26/2025 12:21AM - [redacted]
08/25/2025 09:35AM - [redacted]
08/23/2025 08:54AM - [redacted]
08/21/2025 09:58AM - [redacted]

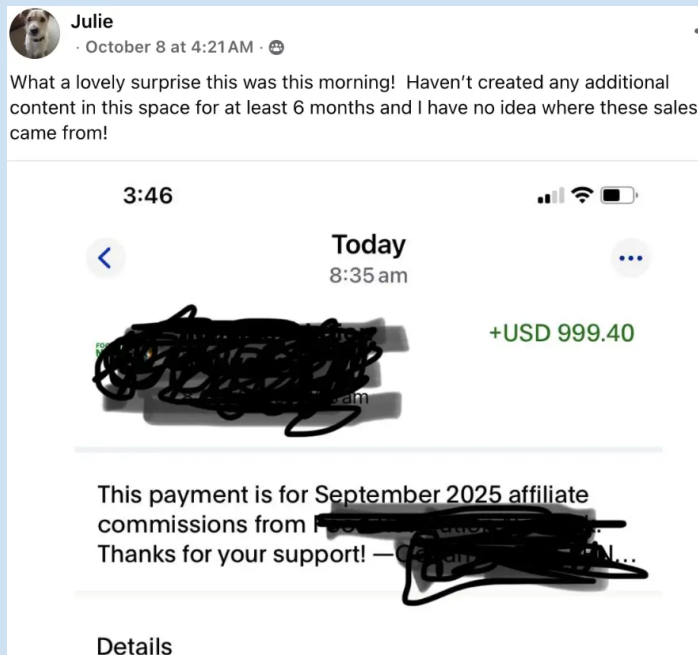

(\$3,375 is one payment, but he is getting multiple payments each week)

(This was a larger commission from a page he put online about a year ago and is STILL getting visitors).

Julie, who is in multiple niches, had almost forgotten about one of the pages she set up over 6 months ago!... She had a nice surprise when \$999.40 came in commissions from

that niche. It just goes to show, by putting up these kinds of pages, that get free, organic traffic, that they can keep paying off a long time into the future.

When Vernon came to us, he was a burnt-out fitness coach struggling to make steady income online.

He was trading hours for dollars and constantly stressed about his business.

We helped him discover an incredible niche, **Coffee Alternatives**, which is for people who love coffee but need caffeine-free options (so they can sleep better, etc).

Within 30 days, Vernon was getting regular buyer traffic. Within two months, he was making consistent sales, making \$75 per sale in commissions.

Over time he scaled this site up to over **\$22,500 per month** from 100% free traffic. No ads. No paid traffic. Just organic visitors who were ready to buy an alternative to coffee.

THEN Vernan scaled things further...

He took the exact same strategies and applied them to a second niche he knew naturally: **exercise and fitness**. With 25 years as a trainer, he understood the products, the customers, and the language they use.

And now, after spending a lot of time on it over the past year, he has managed to take his fitness site to an even higher level than his coffee alternatives site!

While he is focussing more on his fitness site now, his original coffee site still runs in the background, making commissions every month.

Vernon now makes breakfast with his son every morning, coaches his sports team, and has true time freedom.

All from free traffic. Multiple niches. And multiple passive income streams.

This is what happens when you master the system once, then scale it.

Please note: These results are not typical, some of those mentioned above are among our top students, but it shows what is possible with dedication and persistence with our proven method.

Why Is This Working SO Well?

Well, there are a few key things that separate what we do, from what other people do who are struggling.

One of those things that has proven to be KEY this year, is that our pages are more interactive.

This isn't always a custom widget added to the page (though it can be), sometimes it's down to the language we use, adding in helpful info graphics, and really making sure we answer those deeper questions that other pages are not answering.

People stay on our pages longer, they share our pages more too, they trust us more, and naturally follow the path to products we recommend, where we earn our commissions.

And as a result of those things, time on site, more sharing, etc, organic sources of traffic (Google, Bing and elsewhere) move our pages up the rankings, and they get seen by more and more people.

Let's break this down into some more detail...

Reason #1: Personalization is EVERYTHING in 2026

People are tired of generic content. They want solutions tailored to THEIR specific situation.

When your page asks questions and adapts to each visitor, it creates a sense of "this was made for me" that static content can never achieve.

Register for the free workshop here: <https://www.stealthstr.com/workshop>

Reason #2: Interactive Pages PROVE Your Value

Instead of just TELLING people you have the answer, you SHOW them by providing immediate value through calculators, quizzes, and tools.

This builds trust instantly—before they ever click an affiliate link.

Reason #3: You're Qualifying Buyers While They Engage

Every question answered, every calculator used, every quiz completed tells you MORE about what that visitor needs.

By the time they see your recommendation, they're already primed and ready to buy the exact solution they need.

Reason #4: Search Engines REWARD Engagement

Google doesn't just want content, it wants content that people actually USE.

When visitors spend 5-10 minutes interacting with your page instead of 30 seconds reading and leaving, Google notices. And it ranks you higher.

And the same is true of other major search engines and places you can rank your content.

Reason #5: Higher Time-On-Site = Better Rankings

The longer people stay on your page, the more Google sees it as valuable content worth ranking.

Interactive elements keep people engaged for minutes instead of seconds, which dramatically improves your SEO performance over time.

"But Wait... Don't I Need To Be A Tech Genius?"

The 3 Biggest Myths Holding People Back

We totally understand if you're feeling skeptical. Most people think creating interactive pages requires:

✗ MYTH #1: You need to be a coding wizard

WRONG! Our Stealth Command Center includes a point-and-click Interactive Tool Creator that lets you build quizzes, calculators, and forms without writing a single line of code.

If you can fill out a form, you can create these interactive elements.

✗ MYTH #2: You need expensive custom development

Register for the free workshop here: <https://www.stealthstr.com/workshop>

HECK NO! Everything is included in our system. No hiring developers. No expensive plugins. No ongoing tech costs.

✗ **MYTH #3: It takes forever to set up**

NOPE! With our templates and AI-powered tools, you can have a fully interactive page up and running in an afternoon.

Our FrankyTool does the niche research and content planning for you. Our Stealth Command Center creates the content with deep research that sounds natural (not like AI). And our Interactive Tool Creator builds the engagement elements.

It's all designed to be simple enough that we taught it to our wives and kids.

That's how accessible it is.

What You DON'T Need (This is Important!)

Here's what makes this model so different from everything else out there...

You don't need:

- ✗ Your own product or service
- ✗ Employees or a team
- ✗ A merchant account
- ✗ Inventory to store
- ✗ Drop shipping logistics
- ✗ Customer support systems
- ✗ To be a professional copywriter
- ✗ To be a traffic expert
- ✗ To create paid ads
- ✗ Advanced tech skills
- ✗ A huge time investment (2 hours/day initially, then 1-2 hours/week)
- ✗ A lot of money to start (under \$2,000 total)
- ✗ Video creation skills
- ✗ To run webinars
- ✗ To live in a specific country
- ✗ Specialized marketing degrees or certifications
- ✗ Complicated sales funnels
- ✗ To blog daily or create constant content
- ✗ To podcast or be on camera
- ✗ Any conventional internet marketing BS

Instead, all you do is build small, focused affiliate sites with interactive elements that engage visitors and convert them into buyers.

This is NOT blogging. You're not churning out daily posts or writing for entertainment.

Register for the free workshop here: <https://www.stealthstr.com/workshop>

You create purposeful content based on exact buyer keywords, often just a handful of strategic pages per site.

Each page serves a specific buying intent, converting your visitors into passive income without ongoing maintenance or constant updates.

What Makes This Different From Everything Else?

Why You Should Pay Attention Even If You've Been Burned Before

We spend time in countless online communities and groups, and we constantly hear from people just like you.

People who:

- Are frustrated with complicated funnels that don't convert
- Have lost money on paid ads that never paid back
- Tried Amazon or dropshipping and got destroyed by competition
- Wasted money on courses that promised the world but delivered nothing
- Feel like they're always one step behind the latest trend

We get it. We've been there too.

For years, we've watched people struggle and spend their life savings trying to make money with trendy methods that are too complicated, too expensive, or just don't work for regular people.

But here's what we know for sure:

Making money online doesn't have to be complicated, expensive, or high-risk.

It doesn't require you to be on camera. It doesn't require a massive ad budget. It doesn't require you to manage inventory or deal with customer service. It doesn't even require you to write if you don't want to (AI does the heavy lifting).

What it DOES require is:

- The right strategy (Interactive pages that engage and convert)
- The right tools (Which we provide)
- The right support (Which we give you)
- And a willingness to take action

That's it.

The "Stealth Interactive" Strategy That Makes This All Work

Let me walk you through exactly how this system works at a high level. We'll go much deeper in the live training, but this gives you the big picture overview...

STEP 1: Find A Hungry Niche

Using our FrankyTool, you'll discover profitable niches with "buyer intent" keywords that your competitors are completely missing.

We teach you the "3-Levels-Deep" method to drill down into specific sub-niches where competition is low but buyer intent is HIGH.

STEP 2: Create Your Interactive Hub

Instead of a boring static site, you'll create an Interactive Hub featuring:

- Our Elite Tools that automatically do Deep Research and Write Articles For You... that answer burning questions that aren't being answered adequately.
- Info graphics that people bookmark, share and refer back to when making a decision.
- Quizzes that segment visitors by their specific situation, and give them more relevant tips.
- Calculators that provide personalized results
- Simple tools that solve real problems

STEP 3: Deploy Smart Content

Our AI-powered Stealth Command Center creates high-quality, natural-sounding content that DOESN'T sound like AI slop.

It does deep research, understands context, and writes content that actually helps people, which is exactly what Bing, Google and other leading sources of organic traffic wants to rank higher to give their users a better experience.

STEP 4: Drive Free, Targeted Traffic

Using our proven free traffic methods, you'll attract visitors who are actively looking for solutions, without spending a dime on ads.

All traffic is organic and targeted to people with buying intent.

STEP 5: Scale and Profit

Once your Interactive Hub is generating income, you can either:

- Keep it and collect passive income every month
- Scale it up by adding more interactive pages
- Sell it for a massive payday (interactive sites sell for higher multiples)

Why 2026 Is THE PERFECT Time

The Window of Opportunity is NOW

Here's something you need to understand:

Register for the free workshop here: <https://www.stealthstr.com/workshop>

While most affiliate marketers are panicking about AI content saturation and declining conversions...

You have a massive opportunity heading into 2026.

Why?

Because **99% of affiliate marketers are still publishing static pages.**

They're using the same old playbook from 2020, wondering why it's not working anymore.

Meanwhile, the small group of us using Interactive Pages are:

- Getting higher rankings (because engagement metrics are better)
- Converting at higher rates (because personalization works)
- Providing better user experiences (which builds long-term success)
- Making more money (because of all the above)

But this window won't stay open forever.

Eventually, everyone will figure this out. Interactive content will become the norm, not the exception.

But right now—and heading into 2026—**you can be ahead of the curve.**

You can be one of the first in your niche to deploy these strategies.

And you can dominate before everyone else catches on.

This is Perfect For You If...

- ✓ You're tired of methods that require massive ad budgets
- ✓ You want to build real, sustainable passive income
- ✓ You're looking for something that works for beginners
- ✓ You're done with complicated funnels and tech overwhelm
- ✓ You want a business you can build in your spare time (2 hours/day initially, then 1-2 hours/week)
- ✓ You're ready to try something PROVEN but still cutting-edge
- ✓ You want to finally build something you can be proud of
- ✓ You're sick of broken promises and want something that actually works
- ✓ You value time freedom and want to spend more time with family

- ✔ You want an asset you can potentially sell for a significant payday

What's Next?

This report just scratches the surface.

We've shown you:

- Why static pages are dying
- Why interactive pages are dominating
- How we're using this to make 7-figures per year
- How students are building life-changing income

But we haven't shown you the DETAILS.

We haven't walked you through:

- Exactly how to find the best niches
- How to use FrankyTool and Stealth Command Center
- How to build your interactive elements
- Our specific traffic strategies
- How to optimize for maximum conversions
- The 10 hottest niches for 2026
